

TECHNOLOGY STUDENT ASSOCIATION PLAN OF WORK LOG

Date	Task	Time involved	Team member responsible (student initials)	Comments
1.	Coding the base of the website. We added styles and fonts.	3 days a week for one month.		We mainly attempted to make the site look more aesthetically pleasing.
2.	Looked into Telemedicine and researched all about how it works.	3 days a week for one month.		Knowing more about the topic, we created the fictitious company and explained what the website will be capable of.
3.	Chose four doctors that would be required for Telemedicine.	3 days a week for one month.		This would allow the customer to choose a specific doctor based on their needs.
4.	We attempted to create a fictitious scheduling system for customers.	3 days a week for one month.		This would allow the customers to schedule appointments with the doctors, also providing their information.
5.	Added more text and information about the website.	3 days a week for one month.		Added information such as customer service/dedication and how to manipulate the website.
6.	Focused on touching up the website and improving.	3 days a week for one month.		With this new information, it would allow customers to easily navigate the website.
